

# *Keep Rossville Clean*

## *Drains To Stream*

### **Did you know?**

The quality of our streams, rivers, and lakes are threatened by the daily activities of residents and businesses across the region. The only way to combat the adverse effects of pollution is through knowledge. The leading threat to our water quality is stormwater pollution.

### **10 Things You Can Do To Be A “Solution To Stormwater Pollution”**

1. Never dump anything on the street, down a storm drain or in a drainage ditch.
2. Scoop up after your pet. Bag it and throw it away in the trash.
3. Compost grass clippings and leaves or bag them for curbside collection.
4. Use fertilizers and pesticides sparingly. Do not apply on paved areas.
5. Check your vehicles for leaks and repair them.
6. Reduce, reuse and recycle the amount of cleaning and maintenance chemicals used at home.
7. Recycle motor oil and other vehicle fluids.
8. Throw litter in its place.
9. Wash cars at a commercial car wash or on a grassy area, not your driveway.
10. Tell a friend or neighbor about how to prevent stormwater pollution and get involved.
